The seven Colors of the Mystery

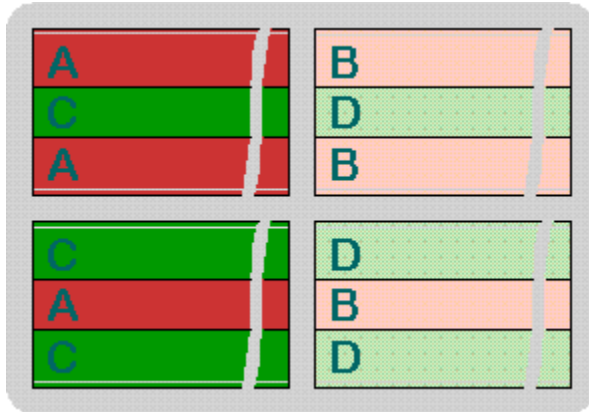

CUTTING & SEWING OF STRIPS: GENERAL REMARKS. On this page are instructions on cutting and sewing strips of all seven colors. Only total lengths are given, not a specific number of strips of a certain length. The best way to proceed is to cut the strips in a direction across the bolt, perpendicularly from selvage to selvage, and to regard the length of each full-sized strip to be 40", which usually is slightly less than its actual length. In this way, you will not have to be concerned about running out of strips.

COLORS "A" / "B" / "C" / "D" CUT: 4 batches of Narrow Single Strips.
